**9th Annual
International Conference of United Submitters
July 15-17, 1994 Bellingham, WA**

God willing, make your plans to attend this important event and to meet submitters from all over the world. Attendance is by invitation and prior registration only. A registration form is included with this issue of the newsletter if you are receiving it in an envelope. If you would like to attend the conference but did not receive the registration form, please contact us immediately.

CONFERENCE SITE

Bellingham is a beautiful town in the state of Washington. Those of you who will be coming by air can either fly to Vancouver, B.C., Canada, or to Seattle, Washington. In both cases some driving will be needed, about half an hour from Vancouver, or one hour and 15 minutes from Seattle. We were informed that there are shuttle services from both airports to the conference site. You should have more information on the shuttle service when you receive your information package.

HOUSING INFORMATION

The conference site is a unique retreat nestled in a quiet and wooded setting. Participants will be the only occupants within the housing units, dining facilities and lounges. Options include: single, double and family units.

REGISTRATION

There is a \$10 per person registration fee. The registration deadline is June 30, 1994. Pre-registration is an absolute must. The registration fee must be sent in with the registration forms.

Please look forward to receiving your information filled package, and pre-registration form soon, and see you there, God willing.

Seminar: Mathematical Miracle of the Quran

A seminar will be given by brother Milan Sulc about the mathematical structure of the Quran. This seminar is free for the participants of the conference, and it will be held in the conference site in July 12-14. If there is sufficient interest, the same seminar will be held again in July 18-20. Complete details of this seminar are included in a separate flier with this newsletter. If you need more information or have questions about this seminar, please contact us.

Note: Try to take advantage of recent airline fare cuts. Make your plans without delay to attend this conference and the seminar, God willing.

Submitters Perspective

Monthly Bulletin of United Submitters International Published by Masjid Tucson March 1994 Shawwal 1414 Vol. 10 No. 3

**The Mathematical Symmetry
Between The Frequency
And Numerical Value Of God's Names
In The Quran**

وَلِلَّهِ الْأَسْمَاءُ الْحُسْنَىٰ فَادْعُوهُ بِهَا وَذُرُوا الَّذِينَ يَلْحَدُونَ فِيَّ أَسْمَاءَهُمْ سَيُجْزَوْنَ مَا كَانُوا يَعْمَلُونَ

Before presenting the Mathematical Symmetry in God's names, I want to expose one of the greatest blasphemies of the followers of Hadith. Because of a famous hadith, the majority of Muslims believe that there are exactly 99 names of God. In that hadith Abu Hurayra narrates:

To God belong 99 Names, a hundred less one; for He likes Odd Numbers. Who-soever knows the 99 Names, will enter paradise.

Hence, the Arabic list of 99 names is one of the most popular posters in the Muslim world. Many memorize the list in hopes of making it to paradise. You can find it hanging on the walls of almost every religious house.

Though the Quran clearly states that beautiful names (attributes) belong to God (17:110) and mentions MORE than 99 names, the followers of Hadith and Sunnah tend to limit God's names to 99. Unfortunately, it is a consistent behavior of tradi-

To God belongs the most beautiful names; call upon Him therewith, and disregard those who distort His names. They will be requited for their sins. [7:180]

tional Muslims to prefer Hadith to the Quran. The Encyclopedia of Islam states this fact under the title Asma al Husna:

In fact, on the one hand, the traditional 99 "most Beautiful Names" do not exhaust the list of all the Kur'anic Names; on the other hand, some of them do not occur *ad litteram* in Kur'an.

Another god besides God!

Calamitously, traditional Muslims have fabricated more than 99 names for the prophet Muhammad, attributing to him many of God's names such as HAAD (The Guide), HA-SEEB (The Reckoner), MUJEEB (The Responder to Prayers), QAWIY (The Powerful), SHAFIY (The Healer), AWWAL (Alpha), AKHIR (Omega), etc. You can see those 102 fabricated names inside the cover of

Qurans published in Pakistan, for instance. Muhammad's names rival God's names and outnumber them.

The blasphemy and ignorance does not stop there. It goes further. Through the 99 names, Satan has fooled them to attribute a bad name to God: al-DARR. Its meaning is very clear. Look it up in any dictionary and you will find the same definition: HARMFUL.

An Awesome Design

Dr. Cesar Adib Majul, in his book "The Names of Allah in Relation To The Mathematical Structure of Quran" discovered the following two facts:

1. Only four names (attributes) of God have gematrical (numerical) values that are a multiple of 19, i.e.: Wahed, Zul fadlil 'azeem, Majeed, and Jami'.
2. The numerical values of these four names correspond exactly to the frequency of the four words of "basmalah," in the Quran; that is, 19, 2698, 57, and 114.

The Interlocking Symmetry Between The Numerical Values And Frequencies Of Attributes Of God

If we study this table we will notice an asymmetry. On the right side of the table are four names of God, but on the left side there are only three. Obviously, "Ism" (Name) is not a name of God. Therefore, we can hypothesize two things in order to have a symmetric table:

1. There may be one name of God which has a frequency of 19.
2. Only four names of God may occur in the Quran as multiple of 19.

When we examine the frequencies of all the names of God, we find that ONLY four of them are repeated in the Quran as multiple of 19. We have already discovered three of them: Allah (God), Rahman (Gracious), and Raheem (Merciful). The fourth one is "Shaheed" (Witness). This name is mentioned in the Quran exactly 19 times and thus fills the empty space corresponding to the numerical value of "Wahed" (One) on the right side of the table.

3:98	4:33	4:79	4:166
5:117	6:19	10:29	10:46
13:43	17:96	22:17	29:52
33:55	34:47	41:53	46:8
48:28	58:6	85:9	

Now we have the ultimate table of God's names that fulfills our hypothesis of symmetry.

We can integrate these eight names according to their context in the Quran:

God bears WITNESS that He is ONE. GOD is POSSESSOR OF INFINITE GRACE by sending his revelation to us. He is GRACIOUS and GLORIOUS. He is MERCIFUL as the EDITOR of the Quran and the GATHERER on the day of Judgment. . . .

"Absolutely, by the moon. And the night as it passes. And the morning as it shines. This is one of the great (miracles.) A warning to the human race. For those among you who wish to advance, or regress" (Quran 74:32-37).

Edip Yuksel

Frequency of:		Gematrical value of:	
Ism (Name) اسم	19 (19x1)	Wahed (One) واحد	
Allah (God) الله	2698 (19x142)	Zul fadlil 'azeem (Possessor of Infinite Grace) ذوالفضل العظيم	
Rahman (Gracious) رحمن	57 (19x3)	Majeed (Glorious) مجيد	
Raheem (Merciful) رحيم	114 (19x6)	Jami' (Editor; Gatherer) جامع	

Frequency of:		Gematrical value of:
