**WHO ARE WE?**

*During the last 14 centuries traditions, customs, superstitions and innovations have crept into Islam. Gradually, these distortions came to be vested with such religious solemnity that anyone who questions them finds HIMSELF regarded as the dangerous innovator and heretic. Islam today is a precious jewel that is buried under piles upon piles of man-made innovations. Our aim is to eradicate all distortions and present the jewel of Islam to the world.*

**THIS IS A SINCERE INVITATION FOR ALL MUSLIMS TO COME TO GOD AND HIS PROPHET MUHAMMAD, AND TO OBEY GOD AND HIS PROPHET MUHAMMAD.**

**FAHD: THE LAST SAUDI KING**

The Saudi tyrants have declared war on God, and God is sure to win. And the tyrants are fuming mad at me because I turned down their offer to buy me for a million dollars. They have grown accustomed to see our 'Ulama bow down before their mighty dollar, and readily join their flimsy army of Satan.

The downfall of the Saudi dynasty is now assured. Literally millions of Muslims around the world have seen God's miracle of Qur'an that is based on purely physical, incontrovertible facts, the Qur'an's miraculous mathematical system. In the face of this phenomenal popularity among all enlightened Muslims, the blind Saudi dynasty has mobilized a number of "Ulama" who are willing to make asses of themselves in return for a few dollars.

As reported in the last issue of M.P., we have witnessed the second ranking

'Alem in the Saudi Religious Heirarchy, Sheikh Muhammad Al-Qa'ood state that BASMALA does NOT consist of 19 letters, and the Qur'an does NOT consist of 114 (19x6) Suras!!!! To every Muslim who knows anything about Qur'an, these strange statements are equivalent to saying that the sun does NOT rise from the East. How arrogant can they get??!

I apologize to all the asses of the world for insulting them by stating that a highly placed scholar who makes such absurd statements is making an ass of himself.

Based on the word of God, that He forsakes those who forsake Him, and humiliates those who declare war on Him, I herein predict that Fahd shall be the FINAL SAUDI KING.

**A PROFOUND MIRACLE: Divine Manipulation of the Computer Produces Correct Results, regardless of human errors.**

Back in 1968 I developed the hypothesis that perhaps the Qur'an's "mysterious" alphabets (A.L.M., Q, N, T.S.M, etc.) possess specific distribution patterns within Qur'an. To test this hypothesis, I wrote the whole Qur'an into the computer, using English symbols for each Arabic character. The first output from the computer was published in 1972 in my book entitled **MIRACLE OF QUR'AN: SIGNIFICANCE OF THE MYSTERIOUS ALPHABETS.** What I learned from that work was that the Qur'an's mysterious initials occurred in their suras at the highest frequency; I knew nothing about the number 19 at that time. In retrospect, the number 19 was all over the place, as seen now on the pages of that first book, but it just was not God's will that we see it.

What concerns me in this article is that the frequency of the letter "N" where it occurs as an initial (Sura 68) appears in those first computer data, as printed in that 1972 book, as 133. This is of course the correct number, or the number that is supposed to be. However, what I fed the computer was only 132 N's. That is because I used an Egyptian printing of Qur'an where the initial "N" is not spelled out, as is the case in the original Qur'an.

When it was God's will to unveil His Miracle in Qur'an, and the role of the number 19 (see Qur'an 74:25-30), the frequency of the letter "N" fit right in with the rest of the miracle, since the number 133 is a multiple of 19. A few months after publishing the results, the letters came pouring

in to inform me that the frequency of the letter "N" is in fact 132, not 133. The absence, addition, or alteration of one word in Qur'an, of course, destroys the whole system; the whole mathematical system collapses. I then embarked on a world-wide search for the oldest Qur'ans, and found out that the original Qur'an and the oldest copies did indeed spell out the Qur'anic initial "N" into "Noon".

How did the computer report the correct result, despite the error in feeding? The only answer is: **Obviously, we were dealing with God's miracle in His Final Scripture, and He has manipulated the computer to inform the world of the correct data.**

The Figure below is a photocopy from the 1972 book, showing the number of N's in Sura 68 as 133. The computer did not pay attention to the data I fed into it. How did the computer generate an extra "N" to give us the correct number??!

That was not the only incident where God has manipulated the computer in order to show us His Miracle. When I wrote the Qur'an into the computer, the number of the word "Allah" that I fed to the computer was in fact 2699. This is the wrong number. But the computer gave us the number that is supposed to be, namely 2698, or  $19 \times 142$ .

What I fed into the computer included one extra word "Allah" from the last two verses of Sura 9. We know now that those two verses do not belong in Qur'an (see the March Issue of MP). Thus, the computer did not pay any attention to the data that I fed into it. It gave us the correct count of the word "Allah" despite the erroneous feeding.

The extra word "Allah" was discovered during the comprehensive review of Qur'an and the computer data at the word for word level, MANUALLY. Ironically, the computer skipped one word "Allah" in Sura 9. In my two books reporting the results: **THE COMPUTER SPEAKS: GOD'S MESSAGE TO THE WORLD & QUR'AN: VISUAL PRESENTATION OF THE MIRACLE**, it was noted that the computer reported only one word "Allah" in Verse 15 of Sura 9. This verse contains two, not one, word "Allah."

When I began this computer research into Qur'an, I had pledged that I will never ever say anything about the mathematical system of Qur'an unless the results are "unanimous," i.e., without any discrepancies or exceptions. Had the computer reported 132 N's back in 1972, the world would have never heard anything about the Qur'an's mathematical miracle, at least not from me.

**ALL WE CAN SAY, THEREFORE, IS "SUB-HANA ALLAH" "GOD BE GLORIFIED."**

## AN INVITATION TO ALL MUSLIMS : OBEY GOD AND THE PROPHET

(Continued from the February Issue)

The object of worship is God ALONE. The Muslims, however, have been preoccupied with their idolization of the Prophet in much the same way as the Christians' preoccupation with Jesus. The only difference being that the Muslims are not aware of their idolatry.

In the process of exalting and idolizing a dead, powerless, and totally unaware human being (see 39:30), the Muslims have disobeyed the Prophet, and forgot the **only one** who created them, the **only one** who is eternally in control, the **only one** who provides for them, the **only one** who terminates their life, the **only one** who will resurrect them, the **only one** who will call them to account, and the **only one** who will place them in Heaven or Hell.

The function of every messenger has been defined in Qur'an as delivering the message LA ILAHA ILLA ALLAH (there is no god except God) (see 21:25). Now, let us put things in perspective. Our Creator informs us that Qur'an is the **only utterance** by Muhammad to be upheld as **THE ONLY SOURCE OF RELIGIOUS TEACHING** (Qur'an 6:19 and 69:38-47). This is affirmed by **the strongest oath in Qur'an:**

**"I swear by everything you see, and everything you do not see (this certainly covers everything in the universe). This is the utterance of an honorable messenger. It is not the utterance of a soothsayer, rarely do you believe. Nor is it the utterance of a revelation from the Lord of the universe. And, if he (Muhammad) ever uttered any other religious teachings, we would have punished him severely, and we would have cut the revelation to him. None of you could have protected him against us." (Qur'an 69:38-47).**

Now that we see that Qur'an is decreed by God, through the Prophet's mouth, as **THE ONLY RELIGIOUS TEACHINGS UTTERED BY MUHAMMAD**, let us examine the Muslims' daily disobedience of the Prophet.

The wise and fortunate Muslim will readily give up his inherited customs and religious ideas in favor of God's commandments that came out of the Prophet's mouth. The unfortunate ones, on the other hand, would stubbornly adhere to what they found their parents and scholars doing:

"When told, 'You shall follow these revelations of God,' they say, 'No, we only follow what we found our parents doing'" (Qur'an 31:21)

"Their inevitable destiny is Hell. That is because they found their parents astray, and they readily followed in their footsteps." (Qur'an 37:68-70)

Here is a list of daily transgressions by the average Muslim against God and the Prophet:

### (1) EXALTING THE PROPHET AGAINST HIS WILL

Verse 285 of Sura 2 states: "The messenger has believed in what was revealed to him from his Lord, and so did the believers. All of them believe in God, His angels, His scriptures, and His messengers, saying, 'We make no distinction among His messengers.' And they say, 'We hear and we obey. Forgive us, our Lord, to You is the final destiny.'"

It is of course deliberate, and extremely significant that the statement **"WE HEAR AND WE OBEY"** comes immediately after the statement **"WE MAKE NO DISTINCTION AMONG HIS MESSENGERS."** For it is a glaring fact of life in the Muslim World that the Muslims have defiantly declared **"WE HEAR, BUT WE DISOBEY."** It is a fact of life in the Muslim World that the Muslims commit gross distinctions among God's messengers by exalting Muhammad over and above all the rest. They bestow extravagant attention on the Prophet Muhammad, while neglecting all other messengers of God. Certainly, if Moses were alive today, and he walked the streets of Cairo, Tehran, or Karachi, he will never hear any Muslim declare: "ASH-HADU ALLA ILAHA ILLA ALLAH, WA ASH-HADU ANNA MOSES RASOOLUL-LAH." The same would be observed by the Prophet Jesus, or Jonah, or Saleh, or Lot, or Solomon, or any other messenger.

This blatant disobedience of the commandments that came out of the Prophet Muhammad's mouth is so deeply engrained that the average Muslim is now literally **unable** to say "LA ILAHA ILLA ALLAH (there is no god except God) by itself, without adding the name of Muhammad somehow. Moreover, they readily flunk the Qur'anic criterion that distinguishes true Muslims from false Muslims:

"When God ALONE is advocated, the hearts of those who do not believe in the Hereafter shrink with aversion. But when others are mentioned besides God, they become happy." (Qur'an 39:45)
